

# FOCUS Workshop

A 2-hour hands-on workshop using FOCUS, the  
“Fast Object-oriented C++ Ultrasound Simulator”  
by Dr. Robert McGough

**Monday, May 13, 8:30 am in Nunn**

This workshop is sponsored by the Biomedical Acoustics Technical Committee (BATC) and will be available to all who are interested. There is no fee to participate, however, you must register online, or use the printed registration form at the time you register for the meeting.

*Figure 1: Calculations of pressures and intensities for radiation force modeling with FOCUS.*

*Figure 2: An Improved Waveform Diversity Method for Optimizing 3-D Power Dispositions.*

Please Note: If you plan to attend, download and install the FOCUS software before the workshop that can be found at [www.egr.msu.edu/~fultras-web](http://www.egr.msu.edu/~fultras-web) and bring your laptop.

If you did not register for the workshop at the time of registering for the conference, you can still attend. Please contact your BATC Student Council Representative, Asis Lopez, and BATC Chair, Subha Maruvada, if you would like to attend the workshop.
