Preparing for the Next Meeting

A successful conference experience starts with good planning and preparation. Consider these tips for keeping in the know:

- **Becoming an ASA student member.** Not only is conference registration cheaper for student members, but membership also has lots of other perks like receiving ASA publications.
- **Registering for the conference** online at the ASA webpage [address below].
- **Visiting the Student Council’s website and social media** [information below].
- **Finding the Student Council’s online Student Guide** (posted on the Student Council website) for student events planned for the conference.

Technical Committees

The ASA represents fourteen technical areas within the field of acoustics. A Technical Committee (TC) or Technical Specialty Group (TSG) provides oversight for each area. These committees are responsible for planning conference sessions and managing various technical aspects in their area. All Technical Committee meetings are open – meaning that you are highly encouraged to attend and participate in the meeting(s) that represent your interests!

Days for each TC Meeting are listed below. TC acronyms and Student Council Reps are listed on the reverse side; check the ASA Itinerary planner or mobile app for meeting locations.

**TC Meeting Days**
- **Tuesday, 5:30pm**: AA, AB, AO, EA, PA, PP, SP
- **Wednesday, 7:30pm**: BA, SA
- **Thursday, 5:30pm**: CA, MU, NS, SC, UW

How Can I Get Involved?

Ask your TC representative or visit the ASA Students website. On the website you can apply for open council positions or volunteer for the student delegation. Calls for applications to serve on the Student Council are typically distributed in January each year. For more information you can speak to the current student council chair.
