Technical Committees

The ASA represents fourteen technical areas within the field of acoustics. A Technical Committee (TC) or Technical Specialty Group (TSG) provides oversight for each area. These committees are responsible for planning conference sessions and managing various technical aspects in their area. All Technical Committee meetings are open – meaning that you are highly encouraged to attend and participate in the meeting(s) that represent your interests!

TC acronyms and Student Council Reps are listed on the reverse side. Check the itinerary planner and mobile app for TC meeting schedules, including the Education in Acoustics TSG open meeting!

How Can I Get Involved?

Ask your TC representative or visit the ASA Students website. On the website you can apply for open Council positions or volunteer for the student delegation. Keep an eye out for calls for applications shared via ASA emails and posted on the website. For more information you can speak to the current student council chair.
